

St. John the Apostle School

Inspiring Mind & Soul

September 17, 2019

Dear Parents,

As per the federal Asbestos Hazard Emergency Response Act (AHERA) an inspection for the presence of asbestos-containing materials (ACM) was completed and an Asbestos Management Plan (AMP) has been developed for St. John the Apostle School.

You may contact the principal, Dr. Deborah Egan, five days in advance to review the inspection report and management plan. These are available for review between the hours of 9:00 – 2:00.

Sincerely,

Deborah Egan, Ed. D.
Principal
