

St. John the Apostle School

Inspiring Mind and Soul

Grade 2

In second grade, children build on and expand the skills they've learned in first grade. They develop the ability to sustain attention on task and work independently. Classrooms are self-contained for the major subjects. Art, Computer Science, Music, Spanish and Physical Education are taught by specialized teachers. At this age, it's critical that children's natural love of learning and curiosity about the world be nurtured to set the foundation for the rest of their formal education.

At St. John the Apostle School, we give children the strong foundation they need for future success.

CORE CURRICULUM

- Language Arts
- Reading
- Math
- Science
- Social Studies
- Religion
- Computer Science
- Music
- Physical Education
- World Language
- Art

HIGHLIGHTS

- First Reconciliation
